

Adding Your Photo

Adding a Photo to Photo Corps

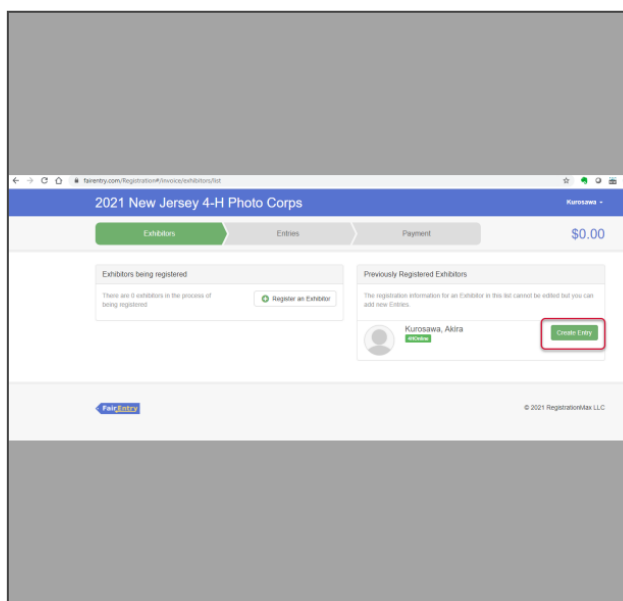

The Dashboard

When you login to your Photo Corps account after you've registered, you'll arrive on the Dashboard.

The Fair Entry software is built around entries for a county fair event. Your photo is considered an "entry" and you're the "exhibitor".

Click on the *View in Detail* button.

Create Entry

On the next screen, select *Create Entry*.

The screens that follow will take you to this month's photo theme.

(In the Fair Entry software each month's theme is considered a "class" under the department (Photography) and division (Photo Corps 2021).
